GLP-1 Nutrition Support

HIBISCUS LEMONADE FLAVOUR

Quiet the food noise. Hunger isn't a willpower issue, it's biological, and when eating becomes overwhelming, GLP-1 Nutrition Support helps promote satiety and metabolic health that can support your body's natural processes in a way that makes daily consistency feel more achievable.

Net Wt 9.8 oz (279 g), #2361

SCIENCE FACTS

GLP-1 is a naturally occurring hormone your body releases after you eat. It's a peptide, or tiny messenger that's a part of your body's communication system, that signals your brain you're full and helps manage how your body uses energy or calories you consume from foods. Fundamentally, when your GLP-1 levels are optimal, your metabolic function is running smoothly, which helps signal body when to eat, when to stop eating, and how to stay fueled to keep your energy consistent.

FEATURES

- ♦ **Feel Full & Satisfied:** Helps support the body's natural GLP-1 pathway, which plays a role in satiety and appetite signaling, so fullness cues feel clearer and more reliable
- ♦ **Promote Cellular Signaling & Metabolic Health:** Supports healthy cellular metabolism and energy balance, helping the body utilise essential nutrients from food intake as part of an overall healthy eating and lifestyle approach
- ♦ **Fuel Your Metabolism:** Helps with energy balance during calorie restriction, supporting metabolic function and fat metabolism that fuels weight wellness goals, when used as a part of an overall healthy eating, activity, and lifestyle modification plan
- ♦ **Activate Fat Loss:** Daily consistent use supports a reduction in overall body fat when used as a part of an overall healthy eating, activity, and lifestyle modification plan
- ♦ **Promote Your Body's Balance:** Helps support healthy glucose metabolism within the normal range, which is closely linked to appetite regulation and feeling full
- ♦ **Reinforce Satiety at Mealtime:** Designed for consistent once-daily use to support natural satiety signaling and metabolic function, working best alongside balanced nutrition and regular activity
- ♦ **Your Wellness, Your Way:** Provides nutritional support for satiety and metabolic signaling at any stage, whether used on its own or alongside other weight-management approaches, including prescription therapies

KEY INGREDIENTS

- ♦ **metabolaid®** supports healthy metabolic function and energy balance, helping the body respond efficiently to food intake as part of a balanced diet and active lifestyle
- ♦ Chromium supports healthy glucose metabolism within the normal range, which complements feelings of fullness along with the body's energy producing pathways
- ♦ Zinc, an essential trace mineral, contributes to healthy appetite and cellular energy metabolism
- ♦ Chicory inulin, a prebiotic fibre, feeds beneficial gut bacteria that support digestive health and helps promote the body's natural GLP-1 satiety signaling

metabolaid® is a registered trademark of Monteloeder, S.L.

HOW TO USE

Add 2 ½ teaspoons to 240 mL of water and mix well. For best results, take 30 minutes before a meal in the morning. Do not exceed the recommended daily intake of 2½ teaspoons per day.

NOTE: Before making changes to your diet or starting a weight loss plan, it's best to check with your healthcare provider, particularly if you have a medical condition or are taking medication.
